

# A CALL FOR INDUSTRY EXPERTISE

Join us on 22nd – 24th March  
@ Plymouth National Marine Aquarium for...

## Hauling Up Solutions 2

Exploring new ways to expand the wildlife bycatch-reduction toolkit

We're looking for industry experience and thoughts on using or making a different type of fishing gear to explore new ways to reduce wildlife bycatch.

**This workshop aims to:**

- Develop clear recommendations for realistic and practical options for using alternative gears in UK fisheries.

There is limited **financial support** available for fishermen and gear manufacturers to attend this workshop.

For more details, or for any other queries, please contact:
